

Adveco Packaged Plant Rooms

PRACTICAL, EFFICIENT & SUSTAINABLE
BUILDING SERVICES SOLUTIONS

Fully Bespoke Plant Room Design

Adveco Ltd. manufacture packaged plant solutions designed and built to meet the particular requirements of a project or application.

The use of prefabricated plant allows for the placement of building services outside or on top of a building, maximising the amount of useable interior space.

On-site labour requirements are substantially reduced, allowing for rapid project timescales.

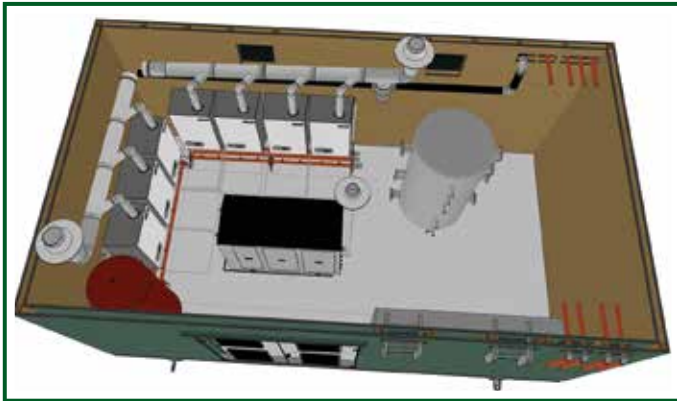

All packaged plant rooms are constructed using reinforced GRP enclosures with a steel base and checkerplate floor.

All appliances and ancillaries are pre-fitted and connected using stainless steel (heating) or copper (DHW) crimp pipework as standard.

Options include full appliance and pipework insulation.

Adveco Ltd. design and build all plant rooms to order, sized to the requirements of the equipment and project

Comprehensive CAD and BIM modeling services are available upon request

Pre-installation of all appliances, ancillaries, pipework and electrical connections is carried out by Adveco.

Branded valves and ancillaries are available upon request.

Enclosures are delivered to location requiring only flues, external pipework and final electrical connections to be completed.

All certification is supplied, plus framed valve charts and schematics. Adveco additionally offer final commissioning services.

For more information, please contact the Adveco Sales Department on 01252 551 540 Option 1 or Sales@adveco.co
