

ATSH 160-1000

Stainless Steel High Capacity Cylinders for DHW

The Adveco ATSh range of stainless steel hot water tanks serve as buffer vessels and indirect hot water calorifiers suitable for use with high pressure applications.

The ATSH is a high quality indirect water heater constructed from corrosion resistant AISI 316Ti and 316L stainless steel. Each vessel features a single internal high capacity fixed heating coil at low-level for use with a high powered heat source, as well as multiple connection points and a mid-level clean-out access flange.

All tanks are designed, manufactured, and tested to the requirements of the Pressure Equipment Directive (97/23/EC) and EN 12897.

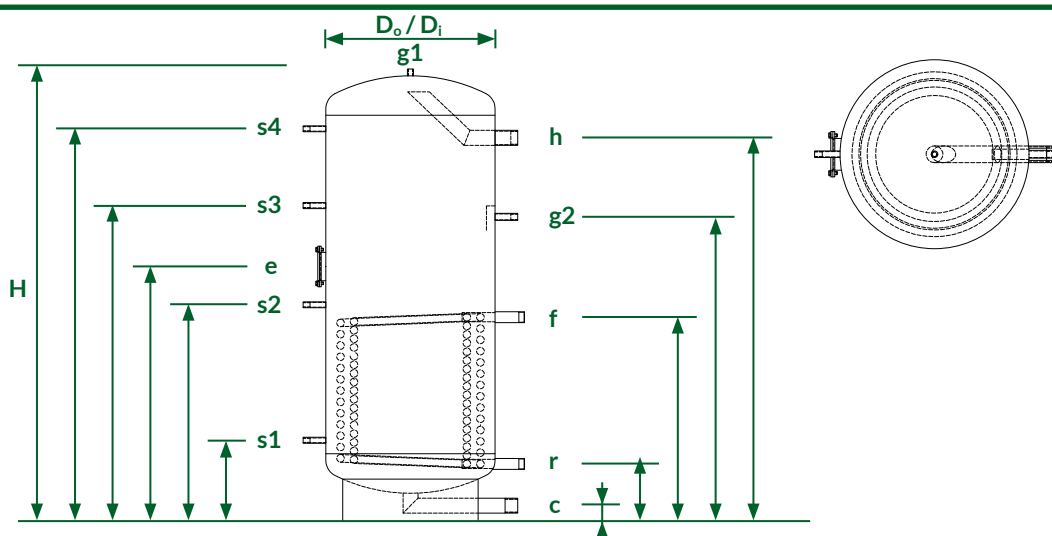

FEATURES

- Available with 160 - 1000 litre capacities
- Produced from high quality 316Ti and 316L stainless steel
